Chris Rowland, JAUNT
Ginger Morris, Greene County Transit (absent)
Sally LeBeau, UVA Hospital (absent)

Call to Order
Chair Diantha McKeel called the work session to order at 8:10 am and began introductions. Ms. Elizabeth Cromwell gave a welcome also.

Mr. Chip Boyles then began the work session with a brief introduction of the Regional Transit Partnership and their goals, objectives and the purpose of the listening session this morning. Next, he led the group through a list of discussion questions regarding transit.

1. What transit services work well within our area? (Especially for business needs)
   - Passenger Rail – 200% increase in 10 years.
   - JAUNT/UVA Partnership – Commuter service = UVA funding
   - Improved bus access in City.
   - Access and Services.
• Frequency in a very small “core” of City.
• UVA App.
• UVA/CAT partnership.
• Increase awareness of localities in Greenway.
• UVA Bus system is good.
• Transit Oriented Development within core.
• Regional Transit Partnership.
• Supportive local officials.
• Intercity Megabus.
• Planning – City/County cooperation.
• Passenger Rail (10 anniversary of regional train)
• Two new commuter transit services (one from the North)
• Megabus increased offerings to DC
• Improved bus access in the city
• Frequency of bus service in the core
• Increased local government awareness of and funding for greenways
• Transit Oriented Development in the core
• UVA Funding
• UVA bus system is reliable
• UVA App for rider services
• UVA students, faculty, staff ride CAT (Charlottesville Area Transit) for free
• JABA partnership with JAUNT
• Informed, supportive local officials

2. What does not work well within our area? (Especially for business needs)
• Frequency.
• No service to Waynesboro.
• Farebox not convenient.
• Weak peripheral service.
• Lack of dedicated bike lane/shoulders.
• No bus in the County.
• Routes change on weekends.
• Insurance burden for Amtrak Station
• Week parking management policy.
• No Park and Ride lots.
• Private ownership of Amtrak.
• Division of 2 agency, UTS/CAT.
• Long bridge capacity.
• Insufficient understanding of parking and transit.
• Lack of transit priority (BRT/dedicated lane/etc.).
• Existing traditional sprawl development.
• No bike allowed on VRE.
• Insufficient East/West rail.
• Bus service hour is short.
• The commuter service is limited/insufficient
• Insufficient East/West rail service/capacity
• Insurance burden from Amtrak/CSX
• Long Bridge
• Private ownership of rail stations
• Lack of transit to Waynesboro
• Insufficient bus coverage in the county
• Insufficient hours (Sunday/evening) of transit operations
• Inconsistency of routes/ Routes change on the weekends
• System doesn’t work well between “spokes” of the wheel. (Weak peripheral service.)
• Weak transition/bike infrastructure from county to city
• Pedestrian and bike safety needs improvements (especially along all of the corridors)
• Weak parking policies/pricing
• Limited park and ride lots
• Absence of UVA satellite parking on the East
• Lack of coordination between CAT and UVA Transit service
• Lack of understanding/awareness from community/private sector of the importance of good parking policies, density policy
• Lack of BRT
• Lack of dedicated bus lanes
• Traditional sprawl development
• No cash cards for buses

3. **What are the obstacles that prevent the transit system from meeting your needs?**
   • Money.
   • Dillon Rule.
   • Poor land use.
   • Legacy road network/land use policy.
   • Culture of private vehicles.
   • Insufficient carrot/stick.
   • Lack of political will.
   • Competing mission of each system.
   • Insufficient regional coordination.
   • Dillon Rule
   • Money
   • Low density and lack of interconnected streets
   • Poor land use planning
   • Insufficient regional coordination

4. **What should local government’s role and priorities be toward transit?**
   • Local authority to control traffic.
   • Increased access to agency/program to reduce social isolation.
   • Better bus network to connect to Park and Ride.
   • Housing issue.
   • TNC (Uber/Lyft) services.
• Coordinate with major employers.
• Coordinated stop arm camera program for school buses.
• More balanced transportation funding (roads vs transit).
• Car pooling.
• Zoning.
• Improved bike/ped infrastructure.
• Good data.

5. **What is the biggest mistakes that could be made to our transit services?**

   • Lack of coordination between services and modes.
   • Changes that will decrease affordable housing.
   • Planning for past trend and not future trends.
   • Maintaining status quo.
   • Leaving out voice of those who use transit.
   • Trying to apply one-size-fits-all solutions to all needs.
   • Distraction of fads.
   • Lack of coordination between services and modes
   • Changes that would decrease affordable housing choices
   • Planning for past, not future trends
   • Doing nothing/maintaining status quo
   • Not doing a comprehensive plan/failure to adapt zoning to community vision
   • Leaving out the voice of those who use public transit
   • Lack of consideration of equity
   • Distraction by new modes of transit

6. **What would you do to improve transit services if it were your business?**

   • Increase funding.
   • More local control of ability to raise money.
   • “Yield to bus” law.
   • Stronger pedestrian safety state laws.
   • Consolidated marketing/organization.
   • Unified technology.
   • More planning/TOD/zoning laws.
   • Easier information distribution.
   • Dynamic pricing of parking.
   • Local authority of roads (take over from VDOT).
   • Other types of transit service.
   • Non displacement strategy.
   • Bike/micro mobility solutions.
   • Last mile solutions.
   • Increase frequency on key routes.
   • What would you do to improve transit services if it were your business?
   • Increase funding.
   • More local control of ability to raise money.
   • “Yield to bus” law.

• Stronger pedestrian safety state laws.
• Consolidated marketing/organization.
• Unified technology.
• More planning/TOD/zoning laws.
• Easier information distribution.
• Dynamic pricing of parking.
• Local authority of roads (take over from VDOT).
• Other types of transit service.
• Non displacement strategy.
• Bike/micro mobility solutions.
• Last mile solutions.
• Increase frequency on key routes.

7. What are some “out of the box” ideas to meet business needs?
   • HOV lanes.
   • TNC/Alternative pilots.
   • VMT tax (vehicle miles traveled).
   • HOV lanes
   • Pilots/TCNs
   • Vehicle Miles Traveled (VMT) tax
   • Congestion pricing
   • TDM
   • Synchronizing lights/prioritizing non-car options
   • Crossing guards for all the schools

8. Who are natural allies that we should bring together to assist?
   • Employers.
   • Environmental groups.
   • Cyclists.
   • AARP.
   • Faith community.
   • Human services.
   • Local electives.
   • Local government.
   • Disability group.
   • Public safety.
   • Universities.
   • Schools/hospitals.
   • Environmental groups
   • Community bikes
   • Employers
   • Faith communities
   • Active volunteers
   • Human service agencies
   • Housing advocates
   • Local elected officials
• Local government  
• First responders  
• Universities and schools  
• Hospitals  
• Healthy organizations

Next steps decided by the group is to work up a plan to do more individualized meetings with business owners and managers.
