

VIRGINIA BREEZE

B U S L I N E S

The safety of our passengers and employees is our top priority. Virginia Breeze Bus Lines has implemented new safety procedures so you can travel with confidence.

COVID-19 POLICIES AND PROCEDURES

Drivers and passengers 10 years old and over are required to wear a face mask at all times while on the bus, including while boarding and exiting.*

After placing your luggage on the ground next to the luggage compartment, please move away so staff can maintain a 6-foot distance while stowing it.

Be prepared to read your reservation number to our staff, rather than handing them your ticket, to maintain proper social distancing when boarding.

Buses are currently operating at 50% capacity, with an empty seat next to each passenger. However, passengers traveling together, such as members of the same household, are permitted to sit together in a shared row.

Customers are encouraged to bring a travel kit on board with hand sanitizer, disinfecting wipes, and gloves.

*This does not apply to any person who has health conditions that prohibit wearing a face covering.

Virginia Breeze Bus Lines looks forward to providing you with a safe and comfortable trip. If you have any questions, please call Megabus customer service at 877-462-6342.
